40th Anniversary Company Outing

A company's staff association was looking for a venue for the company's 40th anniversary. They have an annual outing, but this year they were looking for something special! A delegation visited our location, and we discussed all the possibilities and their wishes.

That is when the real work began for us. We wrote a special program for this group centered around the Land Rover and helicopter. By completing various tasks throughout the day, the teams could win keys needed to open their own bar at the end of the day! A central theme, devised and executed by us specifically for this group, led to the success of their 40th anniversary outing.

Company outing with your own input

This company wanted a fun outing where they could also add an informative element themselves. No sooner said than done! As part of the activity program, we added a 'visit to the suppliers' market'. Various of the company's suppliers had set up market stalls on the terrace, where the employees received explanations about new products. Fully integrated into the program, making the informative part of the day an integral part of the outing.

Finally, the day concluded with the suppliers, enjoying a delicious barbecue and a drink.
