

WHISKYLIST

SCOTLAND

ISLAY

Islay is the southernmost region of the Scottish island chain, and it is also where the most pronounced single malt Scotch whiskies come from. This special character stems from the peat. Over the centuries, the peat has become soaked with salty seawater, which contains iodine and seaweed residues. This gives the whiskies a medicinal character and a salty smell and taste! Powerful, dry and smoky are the characteristics of Islay whiskies. This island is home to no less than 8 distilleries.

Bowmore 12 YO, *Single Malt* 8,75

Tasting note:

Colour: copper

Aromas: heather honey | lemon | orange peel | peat smoke | hay

Taste: soft peat smoke | vanilla | dark chocolate | blossom

Laphroaig 10 YO, *Single malt*

10,00

Tasting note:

Colour: light gold

Aromas: peat | ripe fruit

Flavour: sweet | dry | smoky | floral

Finish: long | soft | warming

SPEYSIDE

Speyside is a relatively small region where the most prominent single malts in all of Scotland come from. Speyside single malts have a sweeter taste with influences of raisins and other ripe fruit. This sweetness comes from the sherry-aged wooden barrels. These whiskeys often contain hints of nuts and malt. Depending on the barley and drying on peat, smokiness is also smokable. Due to a lack of peat, most whiskies are characterized exclusively by a hint of peat. Speyside malts can be lighter and strongly floral, or robust, rich malt with a hint of sherry.

Cardhu 12 YO, *Single Malt*

15,25

Tasting note:

Colour: bright honey golden

Aromas: warm honey | spices | fruit

Flavour: fruity | spicy | honey | nutmeg

Finish: smooth | elegant

Tasting note:

Colour: straw yellow

Aromas: complex | vanilla | melon | lemon peel

Flavour: lemon | vanilla | lightly toasted oak | nutmeg

Finish: long | spices | melon | papaya | fresh oak

HIGHLANDS

The Highlands has it all! A soft or a robust whisky with a refined sea breeze? The Highlands is simply too vast to put the whiskeys in one category. If you still want to think in one big line, you can describe the whiskies as a robust single malt with deeper notes of peat and smoke. The geographical location influences the style and taste of the Highland whisky. A typical whisky from the north can be recognized by its malty-sweet flavors and strong floral, heather scents. Whiskies from the south, also known as the Midland, tend to be softer and lighter with a distinct dryness and fruity influences. In the east, which stretches along the North Sea coast, the whiskies are full and dry with lots of fruit and a present sharpness. The West produces full-bodied, distinct single malts, with a refined, light peat and smokiness. The area also has the typical Maritime Highland whisky, a whisky distilled close to the coast. The closer, the more sea you taste. This ranges from seaweed, brine and shellfish, to beach fires, sea breezes and iodine-rich algae.

Glenfarclas 10 YO, *Single malt*

11,00

Tasting note:

Colour: straw golden

Aromas: sweet sherry | malt | smoke | spices | honey | vanilla

Flavour: delicate | light | malt | smoke | sherry | dried fruit | vanilla | cinnamon | clove

Highland Park Dragon Legend, *Single malt* **12,50**

Tasting note:

Colour: deep golden

Aromas: wood | aromatic peat

Flavour: lemon peel | honey | warm spices

Finish: warming | sweet | honey

LOWLANDS

The Lowlands is also called the backyard of Scotland. The area consists mainly of fields that are ideal for growing grain, which can be used well for whisky. The whiskies from the Lowlands are somewhat lighter in color and taste than the strong whiskies from the Highlands. They typically have soft aromas of grass, grain and flowers, with a dry finish.

Auchentoshan 12 YO, *Single malt* **11,50**

Tasting note:

Colour: honey golden

Aromas: crème brûlée | citrus | nuts

Flavour: soft | elegant | vanilla | mandarin | lime

Finish: medium | dry | ginger | warm nuttiness

29,50

Tasting note:

Colour: pale amber

Aromas: rich | subtle aromas | peat

Flavour: intense | complex | ripe fruit | raisins | cocoa | smoke

Finish: sweet | soft | surprising

I R E L A N D

Irish whiskey is known for its aromatic and full-bodied whiskeys where the smoky flavor is missing. They are rich and powerful. The biggest difference with Scotland is that the Irish also use unmalted barley using the Pot Still. The government levied taxes on malt, but not on the barley grain. As a result, the unmalted barley had to be distilled three times instead of twice, because the sugars are more difficult to convert into alcohol than malted barley.

Bushmills 10 y/o, *Single Malt*

9,50

Tasting note:

Colour: golden

Aromas: soft | warm spices | sherry | vanilla | honey

Flavour: melted chocolate | rich | malt | caramel | honey

Tasting note:

Colour: bright straw gold

Aromas: smoke | pepper | hay | grappa | raisin

Flavour: tobacco | barley | sugar

Finish: smoky candy

JAPAN

The origins of Japanese whiskey can really be traced back to one man: Masataka Taketsuru. Often referred to as the Father of Japanese whisky, he was a chemist who landed in Scotland in 1918. He studied at the University of Glasgow, which not only led to several internships at distilleries in Scotland, but also sparked his love for whisky – and it was there that Masatake met his Scottish wife, Jessie Roberta Cowan.

In 1920, he returned to Japan and began working for Suntory, which at the time focused mainly on fortified wines. He was commissioned to establish Japan's first whisky distillery in Yamazaki, just outside Kyoto. In 1929, Suntory launched its first whiskey, Suntory Shirofuda.

Suntory Toki, *Blended Whisky* 10,50

Tasting note:

Colour: bright gold

Aromas: basil | green apple | honey

Flavour: grapefruit | white grapes | peppermint | thyme

Finish: sweet | spicy | vanilla | oak | white pepper | ginger

Tasting note:

Colour: rich amber

Aromas: complex | citrus | oak | herbs | floral

Flavour: honey | vanilla | tropical fruit

Finish: long | spicy

FINLAND

Who would have thought that such an ingenious idea would be born in the sauna? Rye bread is a Finnish national dish. So why not combine rye and alcohol to create something new and unusual? These were probably the thoughts of five friends from Finland before they founded a distillery that makes unique whiskeys from 100% rye under the name "Kyrö". The Kyrö Malt Whisky is one of these special products.

Kyro, Malt Rye 12,50
Tasting note:
